for Leicester,
Leicestershire & Rutland
Your Communities - Your Commissioner

**Making Leicester,
Leicestershire
and Rutland
safer for everyone**

**This is YOUR CHANCE to influence
the Police and Crime Plan 2021**

My vision is for efficient, robust and professional policing in Rutland, Leicester City and Leicestershire.

I am determined to make life safer. I want this to be a plan that works for everyone. We are diverse in many ways, and I do not intend to write a catch-all plan for the city and two counties. Leicester, Leicestershire and Rutland have their own identities, their own problems and need their own solutions, and I intend to do my best to work with all involved and make our city and two counties safer for everyone who lives and works here.

My police and crime plan features the four key things that all of our communities need:

1. **Visible Policing:** Police officers and staff will be more visible.
2. **Rural Policing:** Provide resources to tackle crimes affecting our countryside.
3. **Community Policing:** Ensure that residents are heard, know more about their local police and that the force is keeping people safe.
4. **Support for Victims:** I am further determined to ensure that if you are unfortunate enough to become a victim of crime that you receive outstanding support services, tailored to your needs.

**What matters to you?
What do you need from
your local police officers?
What crimes affect
your area most?**

I want to hear your views so that my plan reflects the views of our communities.

Having a police and crime plan based on your local knowledge and priorities will help me, the police and our partners provide the resources needed to tackle crime across our city and two counties.
