## **Supporting information**

### **1) Background information**

People Zones are locations with a boundary attached, that has been identified through crime and public health data. People Zones follow an Asset Based Community Development approach, which focuses on highlighting what assets are in the area and how we can help communities to build upon and enhance them.

The hope is to empower residents and workers to work collaboratively to become a stronger, safer, and self-sustaining community. To be eligible to apply for People Zone funding, applicants must be living, working, or providing a service within a People Zone, and the project must meet one or more of the themes identified within the People Zones research report.

### **2) Detail of additional information attached.**

Please see Grant Recommendation document.

### **3) Expected benefits.**

The grant funded projects seek to support the work of the People Zones project, as well as the objectives of the Police and Crime plan through a prevention perspective.

Projects focus on reducing and preventing crime by focussing on risk factors such as mental health and wellbeing, crime and safety, antisocial behaviour, drugs and alcohol misuse, engagement with children and young people, engagement with parents, diversionary activity and signposting opportunities for support.

#### 4) Impact of not approving the application

The People Zone communities will not be able to set up new projects with our support with the view to becoming self-sustaining in twelve months' time.
