Medication not received/requested		There are 6 logs on the custody record relating to medication and HCP trace. The detainee had refused to allow officers to retrieve their medication from their home address. However, it appears that despite this, local officers did attend his address and were not able to locate any medication. A further HCP call has been lodged and they will be seen by the HCP in due course.
Medication not received/requested	Custody record did not indicate that medication had been reviewed or considered	
Not offered to have someone notified of arrest	Record showed auntie had been informed	The detainee has been offered to have someone notified of their arrest. This was explained when they were initially booked in and again at the time of the PACE review, completed by myself with the detainee.
